

## ABS Splice Enclosures

### Features:

- IP55
- Tough ABS construction
- Splice or Hybrid versions
- Wall mountable
- Available with fibre / splice management kits
- Custom machining service
- Stock availability

A tough, compact and lightweight splice enclosure. This splice box is in a number of popular formats including 1in/1out, 1in/2out and 2in/2out. We provide a custom machining service enabling us to supply any other splice box configuration or hybrid enclosures on very short lead times. All ABS enclosures are offered with full fibre / splice management kit options and are available from stock.
